

What's working...

- WY-FI navigator model
- Effective Multi-Agency Review Boards
- WY-FI hub function
- Embedding co-production and innovation
- Multi-Agency Practice Development Groups

In numbers...

- 252 personalisation fund applications approved to date totalling £44.8k
- 8-12 is the average navigator caseload

What's next...

- Monitoring delivery partner pledges to embed the Valuing Lived Experience in the Workforce protocol
- Ongoing engagement with commissioners
- Linking Locality and WY-FI wide system change plans and how they can be used to influence system change
- Prepare Year 5 & 6 business plan
- The West Yorkshire Criminal Justice Network mission is to work together to achieve a coordinated approach to improve pathways for people on their journey through prison and into the community, keeping them well and preventing reoffending behaviour.

Research and analysis

63%

The percentage of WY-FI beneficiaries who are male

A WY-FI beneficiary is most likely to be a white male with an average age of 40

37%

The percentage of WY-FI beneficiaries who are female

A female WY-FI beneficiary is most likely to be white with an average age of 40

77%

WY-FI beneficiaries experiencing homelessness

Homelessness

Addiction

94%

WY-FI beneficiaries experiencing addiction

90%

WY-FI beneficiaries experiencing both mental ill health and addiction

Re-offending

Mental ill health

93%

WY-FI beneficiaries experiencing mental ill health

35.2

Average Chaos Index Score of a WY-FI beneficiary at the beginning of their journey

Chaos Index Score (also known as NDTA score) is an assessment undertaken by a navigator to establish whether an individual will benefit from WY-FI support against a series of need criteria. This is repeated regularly to measure progress. Where progress is positive, the score decreases.

48

Maximum Chaos Index Score possible

27.42

Average Outcome Star Score of a WY-FI beneficiary at the beginning of their journey

Outcome Star Score is a self-assessment tool for beneficiaries to measure their distance travelled. Where progress is positive, the score increases.

100

Maximum Outcome Star Score possible
